

6 Courses

Introduction to Artificial Intelligence (AI)

Getting Started with AI using IBM Watson

Building AI Powered Chatbots Without Programming

Python for Data Science, AI & Development

Developing AI Applications with Python and Flask

Building AI Applications with Watson APIs

Aug 29, 2023

Yassine El anssari

has successfully completed the online, non-credit Professional Certificate

IBM Applied AI

This Professional Certificate provides a firm understanding of AI, its applications, and its use cases. Learners have become familiar with IBM Watson AI services and APIs. Learners have also grasped how virtual assistant technology works as well as built and deployed an AI powered customer support chatbot on a website. Learners competing this specialization have picked up practical Python skills to work with AI and have used IBM Watson AI services and APIs to create smart applications. They have become familiar with Computer Vision, Watson Visual Recognition and OpenCV and have used them for image processing and creating custom image classifiers. Learners have also demonstrated their proficiency in applied AI by completing several hands on projects.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Ramesh Sannareddy

Passionate about gaining and sharing knowledge. More than a decade of experience in university-level academics. Worked on the development of multiple course modules, educational content, practical projects, and hands-on lab designs. Doctorate-level researcher in applied AI, machine learning, and deep learning applications.
